

## Spiritual Solutions Looking Through a Spiritual Lens

### **What is an Akashic Record?**

The Akashic Record is a vibrational record of every person's Soul and its journey. This vibrational record exists everywhere in its wholeness, and is completely available in all places. The Record contains all past, present, and future possibilities. It is an experiential body of knowledge and compassion. One of the ways to access this profound source is through a Sacred Prayer.

### **What Does Akashic Mean?**

"Akasha is a Sanskrit word, and means "Primary Substance" - that out of which all things are formed. It is the first stage of crystallization of Spirit. This Akasha, or Primary Substance, is of exquisite fineness and is so sensitive that the slightest vibration of an ether any place in the universe registers an indelible impression upon it." \*

\*Levi, The Aquarian Gospel of Jesus the Christ  
(Marina del Ray, CA: DeVorss & Co., 1907). p. 10

### **What Can I Expect From an Akashic Record Reading?**

Having an Akashic Record consultation can be extremely valuable. The Soul's very essence and expression, potentials, and purposes can be revealed. Issues of one's lifetime are brought to light from a spiritual perspective. *Both favorable and difficult patterns that are present can be identified. Corrective measures required to establish harmony can be recognized.*

An Akashic Record Reading is a way to uplift the one being read. While in the Records, the reader **perceives the potential** of the person with whom the reader is working. This perception is then anchored in our ordinary dimension of consciousness.

The one being read resonates to this higher frequency and becomes aware of their "Self" at this quickened vibratory level. *Through this uplifting process, the person being read is relieved of lower vibrational activity, and is freed to move on in their life in a higher state of consciousness and action.*

It is a privilege for a reader to hold the Light steady for those who seek illumination. Ideally, a reading is one Soul connecting with another Soul in an intimate and profound transmission of the Sacred Energy of the Records. This is often a remarkable experience for both people involved. In these sessions, *the heart of your current issues will be revealed.* This revelation will help to bring forth the best ways to heal the causes of your difficulties. Through the Heart of the Akashic Records, a reader can find the points of light and power in you and your life at this time.

## Spiritual Solutions Looking Through a Spiritual Lens

### **How Does My Consultant Access the Akashic Records?**

Over time, there have been many different ways to get into the Akashic Records. This collective of spiritual consciousness is best revealed through spiritual means, such as prayer. When an individual's Records are opened for a reading by an Akashic Records Consultant, a specific sacred prayer will be employed. This is called the Pathway Prayer Process, which is a *conscious, responsible way to access a rich resource of spiritual wisdom and guidance.*

### **How Can I Prepare for My First Reading?**

To prepare for the Reading, consider the areas of your life about which you want information. **People usually ask about health, creative expression, work, finances, relationships and family of origin.** Think about those issues in your life that seem to be hard to change - those areas that seem to get worse with time, never better. *Think about your life and where you would like insight, guidance, and healing information.* Recognizing and dealing with ordinary human challenges are the path to higher consciousness. Bring your questions. Know that the reading is a sharing of the Energy of the Records. The Spirit of Light and Truth will be available to uplift you and illuminate your journey.
